### **Sacrosanctum Concilium**

One of the first matters to be addressed by the Second Vatican Council was the question of how to reform the sacred liturgy of the Church. This had been a matter of widespread concern for decades, not only among "progressive" clergy and theologians, but throughout the general rank and file of those entrusted with pastoral duties. This concern was not confined to the rite of the Mass, but extended to sacraments, sacramentals, prayers, music and art. While it was inadmissible to alter any of the ancient doctrines pertaining to the form and efficacy of the sacraments, there was nonetheless a generally perceived need to reform the cultural modes by which the Church's graces are administered. More concretely, the exclusive use of the Latin language in liturgy posed an obstacle to the active participation by laity. Masses often became occasions for private devotion, so that there was a disconnect between the nominally public liturgy of the Church and the prayer experience of the laity. Even when prayers were translated into the vernacular, they included terms and concepts that were scarcely intelligible to most modern people, so that prayer effectively was little more than rote recitation. There was a need, therefore, to make the Church's treasury of prayer more accessible to the modern mind, without compromising the revealed truths and mysteries to which prayer directs the soul. As the Church in the twentieth century had expanded well beyond Europe and the Americas, liturgical forms grounded in Latin culture sometimes posed an obstacle to the propagation of the faith. The universality of the Church should preclude confining its message to a Latin European cultural manifestation, but instead it should be permitted to adapt its presentation according to various local cultures. For centuries, missionaries had been given special dispensations in the administering of sacraments in order to accommodate local cultural circumstances. What was now needed was universal flexibility in liturgical presentation, to adapt to an ever more culturally diverse and ethnologically changing Church. Even in the traditional Christian countries, Catholics found that the culture in the liturgy was alien to the culture of their daily lives. The liturgy, therefore, needed to be adapted to man as he is found in this age, not as he was centuries ago. The key concepts of this liturgical reform program are inculturation and renewal. Inculturation means allowing existing human culture to inform the liturgy, as in fact happened when the ancient Greek and Roman rites were developed. Over time, to protect against abuses, and out of respect for ancient tradition, liturgical rites came to have an increasingly fixed form, to the point of being nearly inalterable. Meanwhile, the rest of human culture changed at an increasingly rapid rate, so that it was practically impossible for most modern Catholics to have the same appreciation of their liturgical heritage as their medieval predecessors. Art and music similarly tended to stagnate into relatively fixed baroque styles. The whole feel of Catholic liturgy was backward-looking on a cultural level, when in fact the purpose of liturgy is to point to the presence of Christ now in this age.

### **Sacrosanctum Consilium, Vatican II**

Vatican II was one of the most significant events in the life of the modern Church. Between October 1962 and December 1965 the largest ever gathering of Catholic bishops answered the call of Pope John XXIII to let some fresh air into the Church. Completing the work of an earlier Vatican Council that had been cut short, and in a tradition of ecumenical councils dating back to the time of the Apostles, Vatican II laid the foundations for a renewal process that still continues. For this reason CTS decided to republish the four major documents of the Council (known as Constitutions and named after their opening words in Latin), with brilliant new Introductions by some of today's leading churchmen, to encourage continued study of the Council in parishes and elsewhere. Sacrosanctum Concilium has been the cause of more controversy than perhaps any other document of the Council, since it initiated a liturgical reform more radical than any in recent Church history. Critics of the reform allege that many innovations since introduced in the Council's name were neither sanctioned nor intended by the authors of the Constitution. Here is an opportunity to discover the truth for yourself.

## Sacrosanctum Concilium

The sixteen official documents—constitutions, decrees, and declarations—of the Second Vatican Council are now available from Liturgical Press in the most popular and widely used inclusive-language edition translated by Irish Dominican Austin Flannery (+October 21, 2008). As the worldwide Church continues to celebrate the fiftieth anniversary of the Council (1962–65), there is a great need in college classrooms and parish faith formation groups—as well as for individuals—to again have access to these documents in contemporary English. As Flannery wrote in his introduction to the 1996 edition, “The translation of the texts of the Vatican documents in the present volume differs from that in the previous publication in two respects. It has been very considerably revised and, in place, corrected. It is also, to a very large extent, in inclusive language. “I say ‘to a very large extent,’ because we have used inclusive language in passages about men and women but not, however, in passages about God, except where the use of the masculine pronoun was easily avoidable.”

## **Vatican Council II**

"If the Church alone makes the Eucharist, it is also true that the Eucharist makes the Church" appeared as a footnote in a preliminary draft that resulted in Vatican II's Constitution on the Church. This statement, influenced by Henri de Lubac echoes the maxim of Prosper of Aquitaine, "ut legem credendi lex statuat supplicandi." "Lex orandi, lex credendi" teaches that the manner of prayer constitutes the manner of belief. Lex orandi, lex credendi is the foundational principal of the Constitution on the Sacred Liturgy, the first debated conciliar. Sacrosanctum Concilium offered an ecclesiological framework to the Council as a Church of Prayer. Using the Constitution and the ecclesiology that permeates the Rite of Initiation of Adults, this study shows the influence of Sacrosanctum Concilium and the RCIA on the other Conciliar documents and the Church during its post-conciliar reform. Debate over the Liturgy increased since the Fortieth anniversary of the Council. In addition to these discussions, there was a restructuring of liturgy and its text translations; permission was granted for a more extensive use of the 1962 Missal and its companion Ritual. A cry for a "Reform of the Reform" arose and adult initiations have dwindled in the last fifteen years, according to a U.S. survey. Very often, instruction replaced formation in the RCIA process. These liturgical changes also had an effect on ecclesiology, evidence, again of Lex orandi, lex credendi.

Crouan, the author of several studies on liturgical questions including the book *The Liturgy Betrayed* presents another penetrating work on the state of the Eucharistic Liturgy, the problems and errors that still exist, and how to correct these abuses. ### **The Liturgy Documents, Volume One: Fifth Edition**

How has the Liturgy of the Roman rite developed and changed in history before and after the Council of Trent? What principles have determined the boundaries of legitimate liturgical reform over the centuries? What was the Liturgical Movement? Did Guéranger, Beaudoine, Guardini, Parsch, Casel, Bugnini, Jungmann, Bouyer and the Movement's other leaders know and respect these principles? And what is to be said of the not insignificant liturgical reforms carried out by Saint Pius X, Popes Pius IX and Pius XII and Blessed John XXIII in the course of the twentieth century? In *The Organic Development of the Liturgy*, Dom Alcuin Reid examines these questions systematically, incisively and in depth, identifying both the content and context of the principle of \"organic development\"-a fundamental principle of liturgical reform of the Second Vatican Council's Constitution on the Sacred Liturgy *Sacrosanctum Concilium*-making a significant contribution to

the understanding of the nature of the Liturgical Movement and to the ongoing re-assessment of the reforms enacted following the Council.

### **Spiritus Et Sponsa**

For more than thirty years the Church has been torn apart by a conflict that revolves around the question of Liturgy. In this instructive and practical work, Denis Crouan makes accessible to everyone the criteria which have been issued by the Magisterium and which define a truly Catholic Liturgy in today's Church. From a position of strength as an experienced theologian, Crouan attempts to show the real causes of the liturgical crisis that has been afflicting the Church. At the same time, his aim has been to highlight the sort of pastoral action that would allow this crisis to be overcome. His solution is not to argue for a return to the past, nor is it to promote arbitrary innovations as regards the liturgical celebration of our faith. Rather, he champions a restoration of the individual authority of the bishops in bringing about, solely with the help of the official liturgical texts, the proper application of the principles clearly enunciated by *Sacrosanctum Concilium*, Vatican II's Constitution on the Sacred Liturgy.

### **Dogmatic Constitution on the Church**

This document's purpose is to spell out the Church's understanding of the nature of revelation--the process whereby God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the document is to proclaim a Catholic understanding of the Bible as the "word of God." Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

### **The Second Vatican Council**

The first document enacted by the Second Vatican Council was its Constitution on the Sacred Liturgy, *Sacrosanctum Concilium*, and the liturgical reform mandated by that document has probably had a greater impact on the average Catholic than any other action of the Council. That this liturgical reform has not in every respect been the unalloyed success hoped for by the Council Fathers, however, has only been grudgingly recognized. The liturgists and other Church officials responsible for implementing the reforms have had a vested interest in claiming success, even where there was evidence to the contrary. Nevertheless, the many and sometimes abrupt liturgical changes made were bound to affect long-established modes of worship and devotion - not to speak of the drastic move from Latin to the vernacular, which came shortly after the Council, and which necessarily entailed radical change in the Church's worship. In July 2007, Pope Benedict XVI signaled that the liturgical question needed to be revisited when he issued a *motu proprio* that allowed, some fortyplus years after the end of the Council, a wider celebration of the unreformed pre-Vatican-II Mass in Latin as an "extraordinary" form of the Roman rite. While the pope's *motu proprio* was not a repudiation or cancellation of the Vatican II liturgical reforms - as some liturgists feared (and some tradition-alists hoped) - it did indicate a sane and sensible papal recognition that liturgy must be developed organically, not "manufactured" by a "committee." Above all, the pope recognized that the question of the liturgy must be approached realistically in the light of how the reforms have actually worked out, not of how some have imagined that they might or should have worked out. This book by Kenneth D. Whitehead, who has written extensively both on Vatican II and on the liturgy, explains Pope Benedict's action in its proper context and describes the reactions to it, while making special reference to some of the pontiff's own extensive previous writings on the liturgy. The author then doubles back to evaluate the Vatican II liturgical reforms generally - how and why they were enacted, what has actually come about as a result of them, and

how and why a \"reform of the reform\" is now called for. Book jacket.

## **The Organic Development of the Liturgy**

The Liturgy Documents, Volume Four includes supplemental liturgical document which are necessary for the smooth execution of parish devotions and provide grounding for ongoing liturgical formation and catechesis. This volume includes Vatican documents from Pope John Paul II and Pope Benedict XVI as well as documents from the United States Conference of Catholic Bishops.

## **Vatican Council II**

The ongoing debates on the present state and the future of the Roman Catholic worship are not confined to specialists, but are clearly of interest to a wider public, as the responses to the Sacra Liturgia UK conference, held in London in July 2016, have shown. This volume contains the proceedings of the conference and raises the question of how to bring to fruition the insights and instructions of the Second Vatican Council and its key document on the liturgy, Sacrosanctum Concilium, in the life of the Church today. The initial contribution from Robert Cardinal Sarah, Prefect of the Congregation for Divine Worship and the Sacraments, calls for a fuller implementation of Sacrosanctum Concilium. Following on from this other leading figures and liturgical scholars, such as Joris Geldhof, David Fagerberg and Alcuin Reid, examine Catholic worship from a variety of perspectives, including historical, pastoral, social, cultural and artistic themes. Taken together, these chapters present another crucial step along the route of authentic liturgical renewal in the contemporary world.

## **The Liturgy Betrayed**

The Society was founded in 1995 as a multidisciplinary association of Catholic scholars, teachers, pastors, and ecclesiastical professionals in the Anglophone world, with the aim of promoting the scholarly study and practical renewal of the sacred liturgy.
