## **The Prelude to Partition**

The earlier volume in this series dealt with two religions of Indian origin, namely, Buddhism and Jainism. The Indian religious scene, however, is characterized by not only religions which originated in India but also by religions which entered India from outside India and made their home here. Thus religious life in India has been enlivened throughout its history by the presence of religions of foreign origin on its soil almost from the very time they came into existence. This volume covers three such religions—Zoroastrianism, Judaism, and Islam. In the case of Zoroastrianism, even its very beginnings are intertwined with India, as Zoroastrianism reformed a preexisting religion which had strong links to the Vedic heritage of India. This relationship took on a new dimension when a Zoroastrian community, fearing persecution in Persia after its Arab conquest, sought shelter in western India and ultimately went on to produce India's pioneering nationalist in the figure of Dadabhai Naoroji (1825-1917), also known as the Grand Old Man of India. Jews found refuge in south India after the destruction of the Temple by the Romans in 70 C.E. and have remained a part of the Indian religious scene since then, some even returning to Israel after it was founded in 1948. Islam arrived in Kerala as soon as it was founded and one of the earliest mosques in the history of Islam is found in India. Islam differs from the previously mentioned religions inasmuch as it went on to gain political hegemony over parts of the country for considerable periods of time, which meant that its impact on the religious life of the subcontinent has been greater compared to the other religions. It has also meant that Islam has existed in a religiously plural environment in India for a longer period than elsewhere in the world so that not only has Islam left a mark on India, India has also left its mark on it. Indeed all the three religions covered in this volume share this dual feature, that they have profoundly influenced Indian religious life and have also in turn been profoundly influenced by their presence in India.

## **The Man who Divided India**

Mohammad Ali Jinnah has been both celebrated and reviled for his role in the Partition of India, and the controversies surrounding his actions have only increased in the seven decades and more since his death. Ishtiaq Ahmed places Jinnah's actions under intense scrutiny to ascertain the Quaid-i-Azam's successes and failures and the meaning and significance of his legacy. Using a wealth of contemporary records and archival material, Dr Ahmed traces Jinnah's journey from Indian nationalist to Muslim communitarian, and from a Muslim nationalist to, finally, Pakistan's all-powerful head of state. How did the ambassador of Hindu-Muslim unity become the inflexible votary of the two-nation theory? Did Jinnah envision Pakistan as a theocratic state? What was his position on Gandhi and federalism? Asking these crucial questions against the backdrop of the turbulent struggle against colonialism, this book is a path-breaking examination of one of the most controversial figures of the twentieth century.

## **Rehearsing the Partition**

Established as a homeland for India's Muslims in 1947, Pakistan has had a tumultuous history. Beset by assassinations, coups, ethnic strife, and the breakaway of Bangladesh in 1971, the country has found itself too often contending with religious extremism and military authoritarianism. Now, in a probing biography of her native land amid the throes of global change, Ayesha Jalal provides an insider's assessment of how this nuclear-armed Muslim nation evolved as it did and explains why its dilemmas weigh so heavily on prospects for peace in the region. "[An] important book...Ayesha Jalal has been one of the first and most reliable [Pakistani] political historians [on Pakistan]...The Struggle for Pakistan [is] her most accessible work to date...She is especially telling when she points to the lack of serious academic or political debate in Pakistan about the role of the military." —Ahmed Rashid, New York Review of Books "[Jalal] shows that Pakistan never went off the rails; it was, moreover, never a democracy in any meaningful sense. For its entire history, a military caste and its supporters in the ruling class have formed an 'establishment' that defined their narrow interests as the nation's." —Isaac Chotiner, Wall Street Journal

## **The Sole Spokesman**

Former American President Bill Clinton Referred To Kashmir As The Most Dangerous Place On Earth. In 1999 Nuclear-Armed Powers India And Pakistan Fought A War Over Kashmir, And Again In 2002 They Came Close To Another. The Kashmir Dispute Represents One Of The World S Oldest And Most Intractable Conflicts, Having Befuddled Policymakers Since The Partition Of The Subcontinent In 1947. Author Arvin Bahl Attempts To Analyze This Conflict In The Context Of International Relations Theory, Drawing On A Variety Of Sources, Including Interviews With Leading Figures Of The Indian And Pakistani Establishments. Bahl Argues That The Question Of The Kashmir Dispute Is Really The Question Of Why The Liberation Of The Kashmir Valley From Indian Rule Has Been A Foremost Pakistani National Interest Since The Partition. Realism, The Dominant Theory Of International Relations, Argues That Regardless Of Era, Region, Ideology Or Domestic Politics, States Will Behave In The Same Ways When Faced With Similar Situations In The International System, Namely They Will Try To Maximize The State S Interests. Yet, Pakistan S Quest For Control Of The Kashmir Valley Represents A Case In Which A Country S Foreign Policy Cannot Be Explained By Realism, And Realism S Main Assumption Of The State As A Rational Actor Appears To Be Violated. The Kashmir Valley Has Little Strategic Importance To Pakistan, Pakistan Has Almost No Chance Of Obtaining It Against A Much Stronger Power That Dismembered It In A Previous War And Its Economy Is Being Destroyed By Military Confrontation With India, Which Also Threatens Its Security. This Study Attempts To Explain The Puzzle Of Pakistan S Seemingly Irrational Policy Behavior On Kashmir By Developing A Framework Combining Liberal And Constructivist Approaches. Constructivists Emphasize The Importance Of Ideas, Ideologies And Identities When Observing How States Behave. The Ideology That Pakistan Was Founded On, The Two-Nation Theory, Makes Ending Indian Rule Over The Kashmir Valley Of Utmost National Interest. For Pakistan To Concede That A Muslim Majority Region That Is Contiguous With It Can Be A Part Of India Would Be For Pakistan To Accept That There Was No Need For The Partition Of The Subcontinent Along Religious Lines And The Creation Of Pakistan In The First Place. Liberals Focus On Understanding Domestic Politics In Order To Understand A Country S Actions In The International System. The Pakistani Military, The Country S Most Powerful Institution Since Its Formation, Has Used The Conflict With India To Bring About And Legitimize Its Dominance Of The Country. South Asia Gained Prominence In American Foreign Policy After The 9/11 Attacks And The Standoff That Ensued Between India And Pakistan In Early 2002. Thus, This Study Concludes With Policy Recommendations, Primarily To American Policymakers, For Dealing With Pakistan And Kashmir Based On The Analysis Developed In The Preceding Chapters. This Book, We Hope, Is An Eye-Opener For All

General Readers. It Will Be Found Immensely Useful And Informative By Students, Researchers And Teachers Of History, Political Science, International Relations And South Asian Studies.

## **The Wish Maker**

This volume seeks to analyse the evolution of Muslim nationalism from 1877 to 1937. This exercise has resulted in highlighting certain trends which have been so far either ignored or underplayed, at any rate in India. It, for instance, shows that two nation theory was as old as the movement for Muslim awakening and solidarity and almost all its leaders firmly believed in it. Similarly the idea of Pakistan, instead of being born in 1933 with Rehmat Ali's forceful espousal of it, is shown to be steadily circulating, particularly in the Punjab, since mid- 1920s. Again, contrary to what has been generally imagined so far, Jinnah as well as Iqbal had become converts to that idea, as early as June 1937, before even the beginning of any serious talk for the installation of a so-called coalition government in U.P., and not after its failure. On the other hand, the volume also reveals the strength of the growing sentiment of Hindu nationalism in 1920s, particularly in the Punjab and Bengal. The situation created by the juxtaposition of the two nationalisms is underlined by Lala Lajpat Rai's declaration in 1924 that in view of the general Muslim attitude a divided India might provide the only solution to the communal problem. Equally significant was Gandhi's repeated assertion in 1924-5 that he saw no solution of that problem except through prayer.

## From Jinnah to Jihad

As The Two-Nation Theory Culminated In The Creation Of Pakistan, The Same Also Became The Ideology Of The State For The Purpose Of Legitimising Political Authority. However, Religion-Based National Identity Could Not Cement The Diverse Socio-Cultural Entities Of Pakistan. The Myth Of Cohesive Islamic Nationhood Was Exploded With The Creation Of Bangladesh In 1971. Although, Pakistan Has Managed To Survive As A Nation-State, Aspiring Multiple Identities Continue To Pose Threats To Its Mono-Religious National Identity. In The Face Of Contesting Multiple Identities, The Domination Of Punjab And Punjabis Still Remains A Defining Core, Alongwith The Islamic Identity. The Present Study Explores, Analyses And Estimates This On-Going Process Of Interface Of Rival Ethno-Sectarian, Linguistic And Regional Identities And Pakistan As A Nation-State.
