A Roadmap towards Circular Economy of North Macedonia

This roadmap is designed to aid North Macedonia's government in establishing a solid policy foundation for a successful transition to a circular economy.

Macedonia's Long Transition

This book provides a broad, interdisciplinary analysis of events impacting on North Macedonia since its independence, particularly during the last decade. In the past thirty years, the country has gone through deep political, social and economic transition, along with a name change from 'Macedonia' to the 'Republic of North Macedonia' following the Prespa Agreement signed with Greece. The contributors consider Macedonia's challenges, its multi-ethnic make-up and its ambition to enter the European mainstream through the auspices of the European Union and NATO. The volume includes chapters on international politics and North Macedonia's place in the region's security architecture as well as the difficulties of the privatisation of socially owned enterprises, political corruption, state capture and backsliding. The book also covers the controversial 'Skopje 2014' project in addition to the impact of migration along the 'Balkan Route' and the current wranglings with Bulgaria over identity politics.

Alternative Paths to Influence

This book offers new and cutting-edge analyses of under-explored subjects and issues in the realm of soft power. It attempts to fill significant scholarly gaps in understanding the process by which soft power is created, as well as gaps in demonstrating its impact. Soft power is one of the most influential ideas in the study of international politics over the past thirty years. Can nations attain their most vital foreign policy objectives in agreeable ways? Advocates of the concept of soft power have vociferously answered in the affirmative. After many years of thinking in the field of international affairs that the only effective path to influence in international politics was military and economic power, the idea of soft power offers new and exciting possibilities of gaining such influence through a more benign path, one that elevates cooperation and esteem as preferred alternatives to violence, threat and military capacity. This book posits that the realization of the full potential of soft power as a foundation for international relations is a crucial goal for our present world, one beset by war and planetary crises. The book will be of special interest to researchers across

political science, international relations, cultural studies and foreign policy. It was originally published as a special issue of the Journal of Political Power.

SARS-CoV-2 and Coronacrisis

This book is useful for administrators of different levels involved in counteracting COVID-19, surveillance professionals, clinicians, researchers specializing in epidemiology, microbiology, and infectious diseases, and politicians / legislators engaged in public health sector. We use an innovative approach of combining both epidemiological and sociological analyses, as the very problem is mainly an issue of correct governance. A team of authors from Europe, Russia and China summarizes their experience and knowledge useful for containing SARS-CoV-2 and overcoming social and managerial consequences of the pandemic. The editors are sure that sharing our different experience would help to elaborate necessary strategies, protocols, and principles that may be effectively applied in the future to avoid dramatic consequences of not only COVID-19 but also any possible epidemiological hazards for people and medicine.

The Handbook on Female Criminality in the Former Yugoslav Countries

This edited volume is the first volume that researches female criminality in the Balkan region and provides insights about patriarchal relations, gender roles, and female criminal behavior. The chapters provide research and data about crimes committed by females in Serbia, North Macedonia, Montenegro, Bosnia and Hercegovina, Croatia, and Slovenia. The chapters investigate topics such as: Long violence Social abuse and discrimination Life trajectories towards criminal behavior Women facing financial stress and dependence and how it relates to crime Women in the criminal justice system Examining the relationship between crime, gender, and the “modernization” of Balkan (ex-Yugoslavian) social structure, this volume is ideal for interdisciplinary criminology scholars specializing in the Balkans. Chapter 3 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

The Tireless Engine

The Second World War – an unparalleled catastrophe. With millions of victims, destruction and immeasurable suffering. But without this catastrophe, the ‘light freight locomotive’ of the Deutsche Reichsbahn would probably never have achieved the importance it has today. It would probably never have become the most built steam locomotive in the world. With probably the most modern production logistics of that time and with the help of forced labour, more than 10,000 units were built. After the war they became a decisive factor in the reconstruction of Europe. More than 80 years later traces could be found in at least 25 countries and on three continents. Find out more about the history of this locomotive, which had a major impact on the railways of the continent.

Smart Technologies for Society, State and Economy

This proceedings book presents a comprehensive view of “smart” technologies and perspectives of their application in various areas of economic activity. The authors of the book combined the results of the cutting-edge research on the topic of “smart” technologies in the digital economy and Industry 4.0 and developed a unified scientific concept. The current experience has been considered, and the prospects for the application of “smart” technologies in society to promote social advance have been identified. “Smart” technologies in public administration and law, as well as the experience in development of e-government, have been examined. “Smart” technologies in business activity have been studied, and the transition from digital business to business 4.0 has been justified. The book contains the collection of the best works following the results of the 13th International Research-to-Practice Conference “Smart Technologies” for society, state and economy which was run by the Institute of Scientific Communications (ISC) and was held on July 2–3, 2020. The target audience of this book includes researchers investigating fundamental and applied problems of development of “smart” technologies, as well as concerned parties outside the academic

community, in particular, representatives of the digital society, high-tech business entities and officials regulating the digital economy and Industry 4.0.

The Collective Dimensions of Employment Relations

This edited volume explores the old and new “collective dimensions” of employment relations. It examines specific challenges stemming from new forms of work of the digital and sharing economy, such as measurement, monitoring, assessment, and remuneration of work, the protection of work-life balance, the impact of new technologies on health and safety, the adaptation of occupational skills to new work processes, and the responses to the digital restructuring of undertakings. It addresses a series of questions such as how the representational action of unions and works councils can adapt to the challenges posed by new production systems and whether the legislative framework needs to be reformed to ensure that digital workers enjoy the right to collective representation. This important collection offers readers a renewed theoretical perspective and justification of the role that the dialogue between workers (representatives) and companies could play in an increasingly complex world of work.

Modern theories and improvement of world methods

Proceedings of the XXII International Scientific and Practical Conference

Al??t?rma? Satranç Dersleri, Ç?rakl??a Ba?l?yorum,1

Satranca ba?layan çocuklar?n en küçük be? ya??nda oldu?unu varsayarak elinizdeki al??t?rma kitab?n? haz?rlad?k. Bu duruma göre yaz?mlama (notasyon) ve temel bilgilerin uygulamal? olarak birlikte verilmesi gerekti?ini savunduk. Kitab? da bu dü?ünceye uygun haz?rlad?k. Derste ö?retmeni zaman zaman edilgen, ö?renciyi de etken hale getirerek satranç ö?retmeyi daha uygun gördük. Esas?nda bu kitab?n gerçek ö?retmenlerinin “ya?lar? küçük ama ufuklar? büyük çocuklar” olan satranç ö?rencileri oldu?unu dü?ünüyoruz. Amac?m?z; engelli çocuklar dahil tüm çocuklara ula?makt?r. Bu konuda çal??malar?m?z sürmektedir. Baz? ifadeleri açarak veya öykülendirerek çocuklara ö?retmek gerekti?ini dü?ündük. Örne?in kitapta geçen “dü?ünme bereketi” ifadesi gibi. Çocuklar do?al olarak soracaktır; “Bereket nedir, ö?retmenim?” diye. Çapraz hatlar? kavraman?n ve zihinde canland?rman?n zor oldu?undan hareketle çocuklara manevi bir güç vermenin gere?i üzerinde durarak üretti?imiz kavramd?r; “dü?ünme bereketi”. Burada ö?retmen öykülendirerek veya yarat?c? drama tekni?iyle çocuklara”bereket” sözcü?ünün anlam?n? anlat?p satranç?n bir dü?ünce sanat? oldu?unu benimsetme yolunda ilk ad?m? atabilir. Çal??ma kitab?n?n “çocuklar?n seviyesinin üzerinde” ele?tirisini alaca??n? bekliyoruz. Ancak bu konuda biz ?öyle dü?ünüyoruz: “Çocuk beyni” ile “yeti?kin beyni” aras?ndaki fark “kavramlar?n ve haf?za kapasitesinin azl??/çoklu?u” aç?s?ndan bir k?yaslama kabul edebilir. Ancak “kavrama, alg?lama, idrak” aç?s?ndan ise çocuklar büyüklerle yar??abilecek ve onlar? a?abilecek bir yetenek ve marifete sahiptirler. Bu 40 y?ll?k e?itim-ö?retim tecrübemizin bize kazandırd??? bir ilkedir. Bu yüzden “yaz?mlama ve cebirsel yaz?mlama” gibi zor ve itici bir konuyu daha ilk kitab?n ba??na koyduk. Ancak b?kt?rmamak için de ?srarc? olmamay? ve arada s?rada uygulama yapmay? kabul ediyoruz. Elinizdeki kitap bir müddet uygulandıktan sonra ö?rencilerle kar??la?t???m?z eksiklikler incelenip geli?tirilecektir. Bu al??t?rma kitab? esas istikameti belirleyen bir ölçek olacaktır. Amac?m?z çocuklar? etkinle?tirmek ve ?emalar? onlar?n da yapmas?n? temin ederek çal??malar?n? sa?lamakt?r. Ö?retiminin birinci ve vazgeçilme kural? “kuramsal ö?retim” de?il de “uygulamal? ö?retim” oldu?undan kuramsal ö?rendi?ini uzamsal ve icraatla ö?rendi?iyle k?yaslad???m?zda daha az süre belleklerde muhafaza etti?ini biliyoruz. Diyagram yerine “sekizli çizge” ifadesini uygun gördük. Türkçemiz yabanc? dillerin sald?r?s? alt?ndad?r. Bu sald?r?y? savacak beyinler de bu ülkede mevcuttur. Sekizli çizge ifadesinin zamanla tutaca??n? umuyoruz. Herkes dünya ?ampiyonu, kent birincisi ve millî tak?m sporcusu olamayaca??na göre Türkiye satranç?na verilecek katkı?n?z?n ne olabilece?ini dü?ününüz. Bir antrenör, bir hakem, bir satranç yazar? ??klar?n? hiçbir zaman unutmay?n?z. Bir u?ra?? ve güzel bir hobi olarak ömür boyu sizi me?gul eden etkinlik olmas?n? umdu?umuz satranç? sevmeniz beklentisi içindeyiz. Kiminiz iyi bir sporcu, kiminiz iyi bir antrenör, kiminiz de iyi bir hakem olabilir. Bu çok do?ald?r. Önemli

olan satrançtan kopmayan ve istikrarlı?, uzun süreli bir hikâye yazman?zd?r. Sadece sporun içindeki satranç de?il ya?am?n içindeki satranç diye dü?ünerek yola ç?kman?z?n daha do?ru bir yöntem oldu?unu dü?ünüyoruz. Kitab?n son bölümünde ek bölüm gibi koydu?umuz maç yaz?mlama formlar?n?n y?l içinde ö?rencilerin birbirleriyle yapt?klar? maçlar ile ö?retmenleri ile topluca icra ettikleri maçlar? kaydetmesi anlam?nda y?l boyu sürecek bir lig mücadelesi gibi ö?renime heyecan kataca??n? dü?ünüyoruz.

Circassia and Ukraine

In light of the war of extermination that waged against Ukraine, the aggression is a typical scorched-earth policy. Genocide, ethnic cleansing, and forced deportation committed in the nineteenth century in Circassia are similar to Russia's war in Ukraine since February 24, 2022. The book reminds of dozens of peoples and nations eager to restore their confiscated rights since the dissolution of the Soviet Union until now. It is divided into time periods (chapters). It touches on articles, studies, prominent occasions, developments, events, and commemorations that occurred during the mentioned period. What happened in the past and is developing nowadays necessitated the documentation, showing and exposing facts and events, which will set the record straight. Where actions speak louder than words, this confirms an undeniable reality. With peoples deprived of their rights, the Russian state did not care so far for mending fences and reconciling for peace and fairness. That confirms an undeniable fact, which is that the Russian state has not cared so far to carry out the duty entrusted to it in order to correct what the successive Russian regimes have committed against the Circassian nation and other victims of wars, occupation, genocide, deportation, and forced annexation.

Turkey and the Balkans

This book delves into Turkey's increasing ethno-religious, pragmatic, and complicated involvement and activism in the Balkans since 2002, under the Justice and Development Party (Adalet ve Kalkınma Partisi – AKP). It primarily focusses on the intersectionality between domestic and foreign policy that has played an important role in Turkey's recent relations with the Balkan countries as well as exploring how the Europeanisation process influences this relationality. Broadly, the chapters in this volume posit that religion, ethnicity and kin politics are indispensable components of identity politics and have the capacity to transform Turkey's foreign policy attitudes as well as the orientations of the Balkan countries. The book also asserts that the impact of the processes of Europeanisation and de-Europeanisation on the relationship between Turkey and the Balkans needs to be included into the analysis. This book will be useful to students, researchers and academics interested in Politics, International Relations and Southeast European Studies. The chapters in this book were originally published as a special issue of Southeast European and Black Sea Studies.

Leben und Tod des Leutnant Dr. K. F. Brandes

Lebensweg des im 2. Weltkrieg gefallenen Leutnants Dr. K. F. Brandes Dieses Werk enthält das kommentierte sowie um historische Recherchen erweiterte Tagebuch und Dissertation 'Graf Münster und die Wiedererstehung Hannovers 1809 - 1815' von Dr. K. F. Brandes. Das Tagebuch von Dr. K. F. Brandes ist eng mit meiner eigenen Familiengeschichte verwoben, das Leben und Werdegang meines Vaters Abram Friedland wird in diesem Werk ebenso kurz vorgestellt. Auszug: \"In der Früh vom 29. Oktober 1943 stolperte eine Abteilung von Divisionsaufklärern unter dem Kommando von Leutnant Stalinskiy, beim Durchkämmen eines von den Deutschen gerodeten Waldes in der Nähe der Weiler Wischnewiy am rechten Ufer des Dnjepr, über die Leiche eines großen blonden Offizieren, einen \"echten Arier\"

Wireless Communications Systems Architecture

This book discusses wireless communication systems from a transceiver and digital signal processing perspective. It is intended to be an advanced and thorough overview for key wireless communication technologies. A wide variety of wireless communication technologies, communication paradigms and architectures are addressed, along with state-of-the-art wireless communication standards. The author takes a practical, systems-level approach, breaking up the technical components of a wireless communication system, such as compression, encryption, channel coding, and modulation. This book combines hardware

Modern Cryptography Primer

Cryptography has experienced rapid development, with major advances recently in both secret and public key ciphers, cryptographic hash functions, cryptographic algorithms and multiparty protocols, including their software engineering correctness verification, and various methods of cryptanalysis. This textbook introduces the reader to these areas, offering an understanding of the essential, most important, and most interesting ideas, based on the authors' teaching and research experience. After introducing the basic mathematical and computational complexity concepts, and some historical context, including the story of Enigma, the authors explain symmetric and asymmetric cryptography, electronic signatures and hash functions, PGP systems, public key infrastructures, cryptographic protocols, and applications in network security. In each case the text presents the key technologies, algorithms, and protocols, along with methods of design and analysis, while the content is characterized by a visual style and all algorithms are presented in readable pseudocode or using simple graphics and diagrams. The book is suitable for undergraduate and graduate courses in computer science and engineering, particularly in the area of networking, and it is also a suitable reference text for self-study by practitioners and researchers. The authors assume only basic elementary mathematical experience, the text covers the foundational mathematics and computational complexity theory.

Security Lessons for Web App Developers – Vol I

In this digital era, security has become new norm and more important than information access itself. Information Security Management is understood as tool for preserving information confidentiality, availability and integrity assurance. Cyber security awareness is inevitable in reducing cyber security breaches and improve response to cyber security incidents. Employing better security practices in an organization plays a key role in prevention of data breaches and information loss. Few reasons for importance of security education and awareness are the following facts. Data breaches cost UK organizations an average of £2.9 million per breach. In 2019, human error accounted for 90% of breaches. Only 1 in 9 businesses (11%) provided cyber security training to non-cyber employees in the last year, according to the Department for Digital, Culture, Media. It has become mandatory for every person to acquire the knowledge of security threats and measures to safeguard himself from becoming victim to such incidents. Awareness is the first step towards security knowledge. This book targets the serious learners who wish to make career in cyber security

Hacker Disassembling Uncovered, 2nd ed

Going beyond the issues of analyzing and optimizing programs as well as creating the means of protecting information, this guide takes on the programming problem of how to go about disassembling a program with holes without its source code. Detailing hacking methods used to analyze programs using a debugger and disassembler such as virtual functions, local and global variables, branching, loops, objects and their hierarchy, and mathematical operators, this guide covers methods of fighting disassemblers, self-modifying code in operating systems, and executing code in the stack. Advanced disassembler topics such as optimizing compilers and movable code are discussed as well, and a CD-ROM that contains illustrations and the source codes for the programs is also included.

Fast Software Encryption

This book contains the thoroughly refereed post-proceedings of the 14th International Workshop on Fast Software Encryption, FSE 2007, held in Luxembourg, Luxembourg, March 2007. It addresses all current aspects of fast and secure primitives for symmetric cryptology, covering hash function cryptanalysis and design, stream ciphers cryptanalysis, theory, block cipher cryptanalysis, block cipher design, theory of stream ciphers, side channel attacks, and macs and small block ciphers.
