The Glance of Countess Hahn-Hahn (down the Danube)

In *The Glance of Countess Hahn-Hahn (down the Danube)*, Peter Esterhazy blends magic realism and travel narrative to dazzling effect. Esterhazy's hero is a professional Traveller, commissioned -- like Marco Polo by Kubla Khan -- to undertake a voyage of discovery and to prepare a travelogue about the Danube.

Communicating his experiences through terse -- and at times surreal -- telegrams to his employer, the Traveller weaves a rich tapestry of narratives, evoking the dreamlike past and the precarious present of a disappearing world. Moving from the Black Forest to the Black Sea, Esterhazy takes the reader on a fascinating European journey of the imagination, down the Danube River, through Vienna, Budapest, and beyond the delta where the mighty river empties into the sea. Filled with allusion, fable, fantasy, history, and autobiography, *The Glance of Countess Hahn-Hahn (down the Danube)* is Peter Esterhazy at his scintillating, adventurous best.

Data Smog

Media scholar (and Internet Enthusiast) David Shenk examines the troubling effects of information proliferation on our bodies, our brains, our relationships, and our culture, then offers strikingly down-to-earth insights for coping with the deluge. With a skillful mixture of personal essay, firsthand reportage, and sharp analysis, Shenk illustrates the central paradox of our time: as our world gets more complex, our responses to it become increasingly simplistic. He draws convincing links between data smog and stress distraction, indecision, cultural fragmentation, social vulgarity, and more. But there's hope for a saner, more meaningful future, as Shenk offers a wealth of novel prescriptions—both personal and societal—for dispelling data smog.

Africa's Media, Democracy and the Politics of Belonging

An overview of the press and mass media in Africa today and their contribution to democratization

La Quinzaine littéraire

This book examines the role that popular media could play to encourage political debate, provide information for development, or critique the very definitions of 'democracy' and 'development'.

Popular Media, Democracy and Development in Africa

In today's Africa racism and ethnicity have been implicated in serious conflicts - from Egypt to Mali to South Africa - that have cost lives and undermined efforts to achieve national cohesion and meaningful development. *Racism, Ethnicity and the Media in Africa* sets about rethinking the role of media and communication in perpetuating, reinforcing and reining in racism, absolute ethnicity and other discriminations across Africa. It goes beyond the customary discussion of media racism and ethnic stereotyping to critically address broader issues of identity, belonging and exclusion. Topics covered include racism in South African newspapers, pluralist media debates in Kenya, media discourses on same-sex relations in Uganda and ethnicised news coverage in Nigerian newspapers.

Provocation from the Periphery

Telling to Live embodies the vision that compelled Latina feminists to engage their differences and find common ground. Its contributors reflect varied class, religious, ethnic, racial, linguistic, sexual, and national backgrounds. Yet in one way or another they are all professional producers of testimonios—or life stories—whether as poets, oral historians, literary scholars, ethnographers, or psychologists. Through coalitional politics, these women have forged feminist political stances about generating knowledge through experience. Reclaiming testimonio as a tool for understanding the complexities of Latina identity, they compare how each made the journey to become credentialed creative thinkers and writers. Telling to Live unleashes the clarifying power of sharing these stories. The complex and rich tapestry of narratives that comprises this book introduces us to an intergenerational group of Latina women who negotiate their place in U.S. society at the cusp of the twenty-first century. These are the stories of women who struggled to reach the echelons of higher education, often against great odds, and constructed relationships of sustenance and creativity along the way. The stories, poetry, memoirs, and reflections of this diverse group of Puerto Rican, Chicana, Native American, Mexican, Cuban, Dominican, Sephardic, mixed-heritage, and Central American women provide new perspectives on feminist theorizing, perspectives located in the borderlands of Latino cultures. This often heart wrenching, sometimes playful, yet always insightful collection will interest those who wish to understand the challenges U.S. society poses for women of complex cultural heritages who strive to carve out their own spaces in the ivory tower. Harmonies of Political Economy

The Animal That Therefore I Am is the long-awaited translation of the complete text of Jacques Derrida's ten-hour address to the 1997 Cérisy conference entitled "The Autobiographical Animal," the third of four such colloquia on his work. The book was assembled posthumously on the basis of two published sections, one written and recorded session, and one informal recorded session. The book is at once an affectionate look back over the multiple roles played by animals in Derrida's work and a profound philosophical investigation and critique of the relegation of animal life that takes place as a result of the distinction—dating from Descartes—between man as thinking animal and every other living species. That starts with the very fact of the line of separation drawn between the human and the millions of other species that are reduced to a single "the animal." Derrida finds that distinction, or versions of it, surfacing in thinkers as far apart as Descartes, Kant, Heidegger, Lacan, and Levinas, and he dedicates extended analyses to the question in the work of each of them. The book's autobiographical theme intersects with its philosophical analysis through the figures of looking and nakedness, staged in terms of Derrida's experience when his cat follows him into the bathroom in the morning. In a classic deconstructive reversal, Derrida asks what this animal sees and thinks when it sees this naked man. Yet the experiences of nakedness and shame also lead all the way back into the mythologies of "man's dominion over the beasts" and trace a history of how man has systematically displaced onto the animal his own failings or *bêtises*. The Animal That Therefore I Am is at times a militant plea and indictment regarding, especially, the modern industrialized treatment of animals. However, Derrida cannot subscribe to a simplistic version of animal rights that fails to follow through, in all its implications, the questions and definitions of "life" to which he returned in much of his later work.

Racism, Ethnicity and the Media in Africa

A New York Times bestseller, *The Burning Tigris* is "a vivid and comprehensive account" (Los Angeles Times) of the Armenian Genocide and America's response. Award-winning, critically acclaimed author Peter Balakian presents a riveting narrative of the massacres of the Armenians in the 1890s and of the Armenian Genocide in 1915 at the hands of the Ottoman Turks. Using rarely seen archival documents and remarkable first-person accounts, Balakian presents the chilling history of how the Turkish government implemented the first modern genocide behind the cover of World War I. And in the telling, he resurrects an extraordinary lost chapter of American history. Awarded the Raphael Lemkin Prize for the best scholarly book on genocide by

Le Berger extravagant, pastorale burlesque. [Based on the novel of the same title by Charles Sorel.]

This original look at the dynamics of international relations untangles the vigorous interaction of domestic and international politics on subjects as diverse as nuclear disarmament, human rights, and trade. An eminent group of political scientists demonstrates how international bargaining that reflects domestic political agendas can be undone when it ignores the influence of domestic constituencies. The eleven studies in *Double-Edged Diplomacy* provide a major step in furthering a more complete understanding of how politics between nations affects politics within nations and vice versa. The result is a striking new paradigm for comprehending world events at a time when the global and the domestic are becoming ever more linked. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. The Animal that Therefore I Am

A central thinker on the question of the animal in continental thought, Élisabeth de Fontenay moves in this volume from Jacques Derrida's uneasily intimate writing on animals to a passionate frontal engagement with political and ethical theory as it has been applied to animals--along with a stinging critique of the work of Peter Singer and Paola Cavalieri as well as with other "utilitarian" philosophers of animal-human relations. Humans and animals are different from one another. To conflate them is to be intellectually sentimental. And yet, from our position of dominance, do we not owe them more than we often acknowledge? In the searching first chapter on Derrida, she sets out "three levels of deconstruction" that are "testimony to the radicalization and shift of that philosopher's argument: a strategy through the animal, exposition to an animal or to this animal, and compassion toward animals." For Fontenay, Derrida's writing is particularly far-reaching when it comes to thinking about animals, and she suggests many other possible philosophical resources including Adorno, Leibniz, and Merleau-Ponty. Fontenay is at her most compelling in describing philosophy's ongoing indifference to animal life--shading into savagery, underpinned by denial--and how attempts to exclude the animal from ethical systems have in fact demeaned humanity. But Fontenay's essays carry more than philosophical significance. *Without Offending Humans* reveals a careful and emotionally sensitive thinker who explores the unfolding of humans' assessments of their relationship to animals--and the consequences of these assessments for how we define ourselves.

The Burning Tigris

By the beginning of the twenty-first century, Christianity has taken shape and established roots in all areas of African reality. It has come to stay. Therefore, we welcome Christianity afresh in Africa, where it has arrived to continue the ancient and vibrant Christianity in Egypt, Ethiopia, and Eritrea. It is appropriate that the Anthology of African Christianity presents, in valuable detail, this new reality that describes its African landscape in totality.

Double-Edged Diplomacy

A striking account of a colony for the mentally ill that forces a reconsideration of madness in society. What happens when the mentally ill are not isolated from society but are instead welcomed into it and invited to take a place in the fabric of the community? Are fear and rejection replaced by the understanding and sympathy often engendered by familiarity? Or are the barriers between the sane and the mad only strengthened? We have experienced a taste of this scenario in the U.S. in the last decade with the new emphasis on de-institutionalization, but Denise Jodelet takes us to an extraordinary community in France where the mentally ill have assumed a visible and prominent role for more than seventy years. The small French town of Ainay-le-Château and its environs are the site of a "family colony" for men, established in 1900. Here the patients ("lodgers") live with ordinary families ("foster parents"), hold jobs, and are free to move about the countryside. Jodelet's chronicle of daily life in the colony is made rich and vivid by extensive ethnographic material as she unravels a complex set of relationships, ultimately finding that while some of the barriers between the "other" and the larger society have been overcome, new ones have arisen in their place. This unique social experiment provides invaluable social and cultural insights, illuminating many fundamental issues in psychology, psychiatry, and sociology.

Berne is the originator of transactional analysis, which he made famous with his landmark publication "Games People Play." In this work Berne lays the groundwork for a rational method for understanding and analyzing human behavior. "Transactional analysis" (TA), is a theory in psychology that examines the interactions, or 'transactions', between a person and other people. The underlying precept is that humans are social creatures and that a person is a multi-faceted being that changes when in contact with another person in their world. Berne developed the concept and paradigm of TA in the late 1950s and it has gone on to have continuing influence in popular psychology. Without Offending Humans

Less than a decade after the advent of democracy in South Africa, tabloid newspapers have taken the country by storm. One of these papers -- the Daily Sun -- is now the largest in the country, but it has generated controversy for its perceived lack of respect for privacy, brazen sexual content, and unrestrained truth-stretching. Herman Wasserman examines the success of tabloid journalism in South Africa at a time when global print media are in decline. He considers the social significance of the tabloids and how they play a role in integrating readers and their daily struggles with the political and social sphere of the new democracy. Wasserman shows how these papers have found an important niche in popular and civic culture largely ignored by the mainstream media and formal political channels.

Anthology of African Christianity

First published in 1967, Guy Debord's stinging revolutionary critique of contemporary society, *The Society of the Spectacle* has since acquired a cult status. Credited by many as being the inspiration for the ideas generated by the events of May 1968 in France, Debord's pitiless attack on commodity fetishism and its incrustation in the practices of everyday life continues to burn brightly in today's age of satellite television and the soundbite. In *Comments on the Society of the Spectacle*, published twenty years later, Debord returned to the themes of his previous analysis and demonstrated how they were all the more relevant in a period when the "integrated spectacle" was dominant. Resolutely refusing to be reconciled to the system, Debord trenchantly slices through the doxa and mystification offered up by journalists and pundits to show how aspects of reality as diverse as terrorism and the environment, the Mafia and the media, were caught up in the logic of the spectacular society. Pointing the finger clearly at those who benefit from the logic of domination, Debord's *Comments* convey the revolutionary impulse at the heart of situationism.

The Art of the Ridiculous Sublime is first of all the detailed reading of David Lynch's *The Lost Highway*, based on the premises of Lacanian psychoanalysis. Lynch's unique universe of the "ridiculous sublime" is interpreted as a simultaneous playful staging and traversing of the fundamental ideological fantasies that sustain our late capitalist society. A master of reversals, Žižek invites the reader to reexamine with him easy assumptions, received opinion, and current critical trends, as well as pose tough questions about the ways in which we understand our world and culture. He offers provocative readings of *Casablanca*, Schindler's List, and *Life Is Beautiful* in the process of examining topics as diverse and as closely linked as ethics, politics, and cyberspace. Slavoj Žižek, a senior researcher at the Institute for Social Sciences of the University of Ljubljana, is the author of *Everything You Always Wanted to Know about Lacan (But Were Afraid to Ask Hitchcock)* and *In Defense of Lost Causes*, among many books. Marek Wieczorek is assistant professor of modern art history at the University of Washington, Seattle, and the author of *The Touch of Light: Laser Paintings by Carel Balth*.

Stretching Man's Mind

This French novella narrates the experiences of a Senegalese girl who, after being rescued from slavery, is raised by a noble French family during the French Revolution. She remains unaware of her difference because of being raised in a privileged household until she overhears a conversation that makes her conscious of her race and of the discrimination it faces. After learning about her roots, Ourika lives not as a French woman but as a black person. The story then presents the struggles she faces with her newly discovered identity as an educated African lady in eighteenth-century Europe. Claire de Duras wrote this best-seller twenty-five years before the abolition of the slave trade in France. This period was a time when not a lot of women published their work, so Duras published *Ourika* anonymously. It marks an important event in European literature as it is the first novel set in Europe to have a black female protagonist. Despite being a short story, this work addresses the themes of race, nationality, interracial love.

Madness and Social Representations

Is the thought of Gilles Deleuze secretly linked to Pierre-Joseph Proudhon's declaration: "I am an anarchist"? Has anarchism, for more than a century and a half, been secretly Deleuzian? In the guise of a playfully unorthodox lexicon, sociologist Daniel Colson presents an exploration of hidden affinities between the great philosophical heresies and "a thought too scandalous to take its place in the official edifice of philosophy," with profound implications for the way we understand social movements.

A scholar of both English and French literature, Chevasco describes how in the 1830s British critics gave Sue's work the same grudging admiration or mistrust they gave to other French novelists, and compared him to contemporaries such as Balzac and Hugo, but after the widespread success of *Les Mystères de Paris* in 1843-44, increasingly identified h\"

Tabloid Journalism in South Africa

An invitation to take part in a conversation with one of the great minds of our time. First published in 2001, this book collects a series of discussions with the journalist David Barsamian. It is the perfect complement to Chomsky's major works of media study such as *Manufacturing Consent* and *Necessary Illusions*. Events discussed in detail are the so-called 'Battle of Seattle' protests against the World Trade Organisation, US involvement in East Timor, and the beginning of the movement towards a second Iraq War.

Comments on the Society of the Spectacle

Are efforts to protect workers' rights compatible with the forces of globalization? How can minimum standards designed to protect labor rights be implemented in a world in which national labor law is more and more at the mercy of international forces beyond its control? The contributors to this volume argue that international agreements and institutions are of central importance if labor rights are to be protected in a globalized economy, exploring some of the options that are open to governments, civil society, and the labor movement in the years ahead.

The Art of the Ridiculous Sublime

In this book, a leading French social thinker grapples with the gap between the tendency toward globalization of economic relations and mass culture and the increasingly sectarian nature of our social identities as members of ethnic, religious, or national groups. Though at first glance, it might seem as if the answer to the question "Can we live together?" is that we already do live together watching the same television programs, buying the same clothes, and even using the same language to communicate from one country to another the author argues that in important ways, we are farther than ever from belonging to the same society or the same culture. Our small societies are not gradually merging into one vast global society; instead, the simultaneously political, territorial, and cultural entities that we once called societies or countries are breaking up before our eyes in the wake of ethnic, political, and religious conflict. The result is that we live together only to the extent that we make the same gestures and use the same objects we do not communicate with one another in a meaningful way or govern ourselves together. What power can now reconcile a transnational economy with the disturbing reality of introverted communities? The author argues against the idea that all we can do is agree on some social rules of mutual tolerance and respect for personal freedom, and forgo the attempt to forge deeper bonds. He argues instead that we can use a focus on the personal life-project the construction of an active self or "subject" ultimately to form meaningful social and political institutions. The book concludes by exploring how social institutions might be retooled to safeguard the development of the personal subject and communication between subjects, and by sketching out what these new social institutions might look like in terms of social relations, politics, and education.

Ourika

In this major new book, Andre Gorz expands on the political implications of his prescient and influential *Paths to Paradise* and *Critique of Economic Reason*. Against the background of technological developments which have transformed the nature of work and the structure of the workforce, Gorz explores the new political agendas facing both left and right. Each is in disarray: the right, torn between the demands of capital and the 'traditional values' of its supporters, can only offer illusory solutions, while the left either capitulates to these or remains tempted by regressive, 'fundamentalist' projects inappropriate to complex modern

societies. Identifying the grave risks posed by a dual society with a hyperactive minority of full-time workers confronting a silenced majority who are, at best, precariously employed, Gorz proposes a new definition of a key social conflict within Western societies in terms of the distribution of work and the form and content of non-working time. Taking into account changing cultural attitudes to work, he re-examines socialism's historical project-which, he contends, has always properly been to lay down the rules and limits within which economic rationality may be permitted to function, not to create some statist, productivist countersystem. Above all, he offers a vital fresh perspective for the left, whose objective, in his view, must be to extend the sphere to autonomous human activity, and increase the possibilities for individual self-fulfilment.

A Little Philosophical Lexicon of Anarchism from Proudhon to Deleuze

"His visions are burning -- his poetry heartbreaking," wrote Elie Wiesel of American poet Peter Balakian. Now, in elegant prose, the prize-winning poet who James Dickey called "an extraordinary talent" has written a compelling memoir about growing up American in a family that was haunted by a past too fraught with terror to be spoken of openly. *Black Dog of Fate* is set in the affluent New Jersey suburbs where Balakian -- the firstborn son of his generation -- grew up in a close, extended family. At the center of what was a quintessential American baby boom childhood lay the dark specter of a trauma his forebears had experienced -- the Ottoman Turkish government's extermination of more than a million Armenians in 1915, the century's first genocide. In a story that climaxes to powerful personal and moral revelations, Balakian traces the complex process of discovering the facts of his people's history and the horrifying aftermath of the Turkish government's campaign to cover up one of the worst crimes ever committed against humanity. In describing his awakening to the facts of history, Balakian introduces us to a remarkable family of matriarchs and merchants, physicians, a bishop, and his aunts, two well-known figures in the world of literature. The unforgettable central figure of the story is Balakian's grandmother, a survivor and widow of the Genocide who speaks in fragments of metaphor and myth as she cooks up Armenian delicacies, plays the stock market, and keeps track of the baseball stats of her beloved Yankees. The book is infused with the intense and often comic collision between this family's ancient Near Eastern traditions and the American pop culture of the '50s and '60s. Balakian moves with ease from childhood memory, to history, to his ancestors' lives, to the story of a poet's coming of age. Written with power and grace, *Black Dog of Fate* unfolds like a tapestry its tale of survival against enormous odds. Through the eyes of a poet, here is the arresting story of a family's journey from its haunted past to a new life in a new world.

Mysterymania

At the end of the Second World War, a growing concern that Canadians' civil liberties were not adequately protected, coupled with the international revival of the concept of universal human rights, led to a long public campaign to adopt a national bill of rights. While these initial efforts had been only partially successful by the 1960s, they laid the foundation for the radical change in Canadian human rights achieved by Pierre Elliott Trudeau in the 1980s. In *Toward the Charter* Christopher MacLennan explores the origins of this dramatic revolution in Canadian human rights, from its beginnings in the Great Depression to the critical developments of the 1960s. Drawing heavily on the experiences of a diverse range of human rights advocates, the author provides a detailed account of the various efforts to resist the abuse of civil liberties at the hands of the federal government and provincial legislatures and the resulting campaign for a national bill of rights. The important roles played by parliamentarians such as John Diefenbaker and academics such as F.R. Scott are placed alongside those of trade unionists, women, and a long list of individuals representing Canada's multicultural groups to reveal the diversity of the bill of rights movement. At the same time MacLennan weaves Canadian-made arguments for a bill of rights with ideas from the international human rights movement led by the United Nations to show that the Canadian experience can only be understood within a wider, global context.

Can We Live Together?

With the intrigue of a psychological thriller, *The Stranger*—Camus's masterpiece—gives us the story of an ordinary man unwittingly drawn into a senseless murder on an Algerian beach. With an Introduction by Peter Dunwoodie; translated by Matthew Ward. Behind the subterfuge, Camus explores what he termed "the nakedness of man faced with the absurd" and describes the condition of reckless alienation and spiritual exhaustion that characterized so much of twentieth-century life. "The Stranger is a strikingly modern text and Matthew Ward's translation will enable readers to appreciate why Camus's stoical anti-hero and \u00addevious narrator remains one of the key expressions of a postwar Western malaise, and one of the cleverest exponents of a literature of ambiguity." —from the Introduction by Peter Dunwoodie First published in 1946; now in translation by Matthew Ward.

Capitalism, Socialism, Ecology

In this major work, Zygmunt Bauman seeks to classify the meanings of culture. He distinguishes between culture as a concept, culture as a structure and culture as praxis and analyzes the different ways in which culture has been used in each of these settings. For Bauman, culture is a living, changing aspect of human interaction which must be understood and studied as a universal of human life. At the heart of his approach is the proposition that culture is inherently ambivalent. With a major new introduction to this new edition, this classic work emerges as a crucial link in the development of Bauman's thought. By his own admission, it was the first of his books to grope towards a new kind of social theory, in contrast to the fals
